Revival, Rise, and Great Again

分享到微信

"The great rejuvenation of the Chinese nation", "the rise of the great powers", "the strong motherland", "the Chinese dream", "two hundred years", "East and West"", , etc., are more than a decade of common slogans in the media and mainland China; and "let the United States great again", referred to as MAGA, is a common slogan in the American media and hats, , of course, limited penetration, , at least half of people do not care or disgust. As a witness to the Cultural Revolution, , I am wary of all the exciting slogans,, but I also understand that most of the time humans are missing them. Many people want world peace ,and common prosperity and progress. If the countries that grow, ,return and reproduce in the next generation ,are strong and great countries, , what is bad or happy? I believe that most overseas Chinese hold this mentality.

But frankly, , these are mostly the product of unrealistic or pathological sensual thinking.

"The “great rejuvenation of the Chinese nation" and "Make America Great Again" are two slogans that can be shouted, ,but they cannot be compatible with each other,, which is a conclusion drawn from the perspective of fact and historical development. If you look ,at the

collision of these two great powers from the footsteps of human processes, you , can avoid the confusion,, anxiety, ,and even hysterical desires of many individuals, without hesitation. Using the trajectory of historical development, ,the common values of civilization, ,common sense, and rational logical thinking to sort out these two great “"practices", you will find many interesting or thought-provoking phenomena. No one wants individuals or groups to take a detour and ,go to hell. Objectively analyzing and discussing these difficult journeys ,is a comfort to you,, and may be an additional help or blessing to others.

The "great rejuvenation of the Chinese nation" is rooted in traditional culture, , but the "Chinese nation" is a new trendy thing that cannot be found in an ancient book. When the Chinese were young, , the vast majority of the family elders began to teach ,them, telling them the long history of glory of the family or in a variety of harsh ways,, forcing the children to do this and that, ,hanging on their lips is the future to be able to get ahead, ,Jackie Chan Feng and Guangzong Yaozu. After school, , the state education was added, ,, so that the glory of the individual was tied to the family, the rise and fall of the country. In fact,, this has created a religious culture that stifles the freedom of the human mind. The results of the widespread practice ,stifled the independent thinking ability of most children , and at the same time became a national fashion and political correctness, , which no one dared to question, ,let alone correct.

We should think about the connotation of "greatness" and the real feelings of the people, , “"”what is the difference between "the great rejuvenation of the Chinese nation" and "making America great again"? “There are great differences between these two "greats", , and there are some historical connections, , especially with the recent history of the European continent, , including the Reformation, the Renaissance, the Industrial Revolution, and the rise of the Marxist-Leninist., The Chinese should learn to see China from the perspective of the world, , rather than standing on the roof of Zijin City to observe or understand the evolution of the world. Seeing the greatness of the American style , is not a matter of course and easy.

The founding of the United States,, with little traditional religion (such as Catholicism, Orthodoxy, and Islam) from the beginning, , was bound by the new Christian population, which constituted the majority of the population. The trajectory of national development, with the moral concept and commercial reality of the two carriages, constantly double integration and or each other. This is not a question of right and wrong, , but a political reality that is constantly being corrected and adjusted. The United States is one of the few countries in the world that can fully stand on its own ,and can develop without external funding and blood transfusion. Isolationism is actually the main axis of the history of the new world, , but the old world needs the United States too much. Half a century after becoming the boss of GDP, , it has been ,promoted by countries with the same or similar moral ideals to the role of the world's police.

Perhaps there are many people inside and outside the United States, , think that GDP first, , the Navy spreads the world, ,education and technological innovation to lead the world, etc., , is the greatness of the United States. Those are only superficial, , and the real greatness of the United States , lies in the relative superiority of the system, , expressed in the balance of constraints, , left or right have room for voice and action. And the culture of the old world is often extreme, ,desperately wiping out opponents, , bringing about a fierce

backlash or a revolution.

At least half of the people in the United States are , unimportant or disgusted. Allowing others to speak and have different opinions is , one of the great characteristics of American America. There has always been ,a “special exception” in the United States and beyond. It cannot be denied , that this is also true, , and this is determined by special natural conditions and political ecology. Many people do not understand the "American interests and values" or the Trump-centric MAGA trend., The old world of the East and West , looked at the rise of conservative forces with a mocking eye, , including the Chinese who had lived overseas for many years.

If you can understand the above description, , it is not difficult to understand the series of actions after Trump took office. From Trump's past video speeches, , he clearly ,has a deep understanding of the nature of his country's special exceptionalism, left-wing socialism in other countries. His deputy, , Vice President Vance Vance, recently spoke at the Munich Security Conference, , reflected traditional American conservative concerns about the proliferation of broad left-wing movements in Europe. In fact, , the sharp left-wing turn in the United States in the past few decades , is also inextricably linked to European connections and influence.

, ,Equality, inclusion, diversity, globalization, environmental protection, racial equality, and feminism in recent years, must be the right slogan, ,literally no problem, ,and has been the goal of the ideal society of mankind for thousands of years. American traditions , have always included these slogans and operations. But if it is contrary to the Constitution ,at the expense of the fundamental freedoms of the individual, , justice, , justice, justice, , and the progress of society as a whole, , it is a witch hunt.

The facts are indisputable. Behind many beautiful slogans that do not allow suspicion, ,the evil humanity has been flooded, , forming a huge black interest industry chain, , including foreign aid, immigration resettlement, education and health care, workplace competition and almost all social fields. Over the years,, under the slogan of political correctness, , the imposition of absurd policies that violate common sense and basic logic, , ,at the expense of professional or industry standards,,, a massive phenomenon has spread in the government, the military, the judiciary, education, medical care and public services, and other fields. Many examples can be cited, , such as the uncovered Secret Service and hiring in the aviation management field. In the field of education, , academic performance is not the main observation indicator, , and a large number of other factors are forced to use a large number of other factors as the basis , for assessment, which reduces the overall quality and competitiveness.

It may be fantasised that, , under the premise of ensuring minimum quality requirements, priority can be given to “vulnerable people” to achieve the ideal situation that society looks fair. ,In fact, most of these are impossible goals. Because the majority of people's “"weakness" state comes from their own factors (a few are exceptions), cultural traditions, or poor competition environment, etc.,, but these people are not necessarily kind or ashamed. And the propaganda of the left is , that poverty is the fault of others, ,and these people are noble in nature., So China has a “saying of “re-education” for the poor. Humans must admit that ,the environment in which birth and grow is not determined by the will of

man, , although the path of the day after tomorrow can be changed. The natural nature of man’s fall is greedy and imperceptible, , , and most of the benefits obtained by the unjust means are not appreciated. From the crime threshold of stealing more than 950 yuan to the rationalization of the mood of zero yuan purchase, from the demand of some people to the equality of certain people to the judgment of others, ,from several women wearing headscarves to requiring everyone to pack together, ……, ... and so on. I , was in the countryside, and I also received “"re-education", knowing , that the proportion of 嗞 thugs in the poor class is far higher than that of other classes. Concealing the fact that the left firmly misleads young people , on the basic survival principle, both Chinese and foreign.

The rapid decline in the depravity of human nature, as early as 500 years ago, , was observed and discussed by the Reformers, , which was nothing new. Do not naively think that , to get the benefits that are not won, ,people will naturally have a conscience. Logical thinking or social responsibility. Therefore,, the one-size-fits-all forced promotion does ,not produce real fairness, , but rather kills more spiritual freedom and creative ability. South Africa, as a country,, has long been a living example, , and I , witnessed the great changes in South Africa more than 20 years ago. The latest example is the transformation of the European continent. This article describes a holistic social phenomenon, , not an individual or artificial so-called “"Lei Feng spirit".

In addition to shaping false “"heroes" and "collective poverty alleviation", mainland China also makes good use of GDP to measure the great road of recovery, and has become an indicator of many Chinese people. Supported by U.S. and Western investment and trade policies, , China’s economy has grown by leaps and bounds for more than two decades,, with the most recent point in U.S. GDP in 2021. But after relations with the West broke down, China’s economy began to reverse. Then , the distance began to be drawn again. Whether China can enter the great rejuvenation with GDP, , regardless of the fundamental freedoms, , justice, , fairness, justice, justice and social progress of the whole,, is worth learning from history. Japan's GDP was only one-eighth of that of the Qing Dynasty, ,but the former relied on the relative superiority of the system , to defeat East Asia's first naval power.

The GDP per capita in the United States is now more than $80,000. The GDP per capita of the United States and major Western powers has always been comparable. But more than a decade , later, , they have all been closer, they are all less than 30-50% of the US GDP, , and there is a trend of expansion. If the United States allows the left-wing trend to continue to flood, , it will undoubtedly , follow the footsteps of Europe in the near future. The Russian-Ukrainian war now is , essentially Russia's failure, ,incompetence and abduction by left-wing ideas. Just think of the same nuclear-armed Britain, France, Germany, and the West NATO powers, , whose economies have crushed Russia dozens of times, , but refuse to really contribute money, ,which is the main factor in the delay of the war. Trump’s demand that these countries spend 5% on defense spending is the key. It can't just be moral, , play the muzzle, , Europe really should be awakened.

The old nest of leftist ideas , is in Europe and has a long history. Eventually, , the rise of communism or socialism a century ago, , swept across Eurasia and , reached its peak in the middle of the last century. ,It was not until the 1990s that the Soviet Union and the Eastern European bloc came to an end. While Marxism-Leninism became stinking, , the left

in Europe and the United States struggled to draw a line with them. There have been many explanations that , the left in the West and the left in the communist countries are two different things. The truth is that the left has long been nurtured by Marxism-Leninism, and likes radical slogans and ethereal utopian societies. From the beginning of the big pot of rice, , to the pursuit of unity, to globalization or the community of human destiny, , and so on. Once these people are in power, they , will inevitably bring or amplify the false, corrupt, ,fraudulent, ,suffering, , and finally the transformation into dictatorial, authoritarian and oppressive societies.

The history of the development of the United States, Europe, Russia, and Christianity , may be an enlightening of the “Great Revival” of the “Chinese Dream.” Not just GDP, but spiritual freedom and liberation are the real rise and revival. Unfortunately,, compared with the United States, Europe, Japan, Taiwan, etc., , the mainland region still has a long way to go, , not to achieve the basic freedoms of citizens, , and to establish a just, , fair and just society, , all the guns will only be short-lived. Externally, , the CCP relies on the expansion of the South China Sea, , the Belt and Road Initiative, the Great Foreign Propaganda, , the export of fentanyl raw materials and related synthetic equipment, ,and the establishment of fraud parks. The method is not to be deceived or copied, and even to achieve their goals by any means. Whether it is technical theft, or false boasting of external propaganda, has become its usual trick. The whole world has understood the connotation of Chinese greatness and rise, , and the key is that the Marxist-Leninist communist ideal has long stink on the streets, , and there is no need to paint it.

In response to the rise of China, , the conservative forces of the United States have finally returned, , which is the ““pre-anticipated reality of almost all the "Chinese Dream" or "big game", the designers of the "Great Revival". America’s greatness is not the elimination of ,, political correct slogans such as equality, inclusion, diversity, globalization, environmental protection, racial equality, and feminism,, or the banning of opposition parties, , or the civil war civil strife that the CCP thinks about day and night. The United States remains a free and inclusive country. But inclusion is not the same as supporting illegality. The measures of the conservative forces will usher in a storm of opposition or criticism, , and only in the pursuit of a unified country and its subjects , will feel panic or civil unrest. Most , Americans will be at ease, because Americans have the votes to correct excessive operation or deviation, , the separation of powers in the United States, ,the four-tier government structure and an independent judicial media system to ensure the integrity of the Constitution and the normal operation of the system. The American , , system is not perfect, and the people do not recognize the existence of perfect people, and such a consensus is also one of the great connotations.

America knows that true greatness is not just a slogan, , it must be corrected internally, , and it must be adjusted externally appropriately , to deal with the cannibalization and subversion of the evil Axis. Trump's latest Russian-Ukrainian policy,,,, , the demands on Canada, Panama, Greenland, and the Gaza corridor of Israel, have been greatly disputed and criticized, , and I do not fully agree with it. Whether concrete measures can be achieved , still needs to be observed. But his grand chess strategy has taken shape, , and it is ,too early to draw conclusions. It is worth noting that , North America and Central America, ,Europe and Japan, Korea and Taiwan have ,made corresponding adjustments in the face of Trump pressure. Looking back at the , history of World War II and the

subsequent evolution of the US-Soviet-China triangular relationship,, the trend of focusing on the division of forces and the suppression of the evil Axis powers has become obvious. Since Taiwan and the South China Sea are the inevitable paths of the great Chinese rejuvenation that have been advocated, they may also become weak and traps, . The great revival and the great future collision point again , may erupt here.

General Judge : China's founding began with the Republic of China, and China was destroyed at least once before, that is, at least twice, the dead party and the country. Believe in my party's statement that 1949 is the beginning of the great rejuvenation, and it is the great rejuvenation of the Chinese nation.

Is going back to 49 years as the greatest renaissance?
